# **Researcher and Scientist**

# Dr Stephan Scheeff

# **Objective**

Using my expertise in synthetic and medicinal chemistry to advance the development of novel antiviral therapies. I am passionate about teaching and mentoring students and strive for excellence in all aspects of my research.

## **Research Experience**

November 2021 - current

Post-Doctoral Research Fellow The Chinese University of Hong Kong

Design and synthesis of novel nucleoside analogs for antiviral purposes together with Prof Billy Ng (School of Pharmacy).

October 2018 - October 2021

Post-Doctoral Research Fellow The University of Hong Kong

Development of synthetic novel methods in the field of reductive copper catalyzed transformations in the research group of Prof Pauline Chiu (Department of Chemistry).

March 2018 - September 2018

**Research Assistant** *Dresden University of Technology* 

Total synthesis of natural products together with Prof Peter Metz (Department of Chemistry).

January 2015 - February 2018

**Research Assistant** *University of Bonn* 

Total synthesis of complex polyketides together with Prof Dirk Menche (Department of Chemistry).

## Education

2015 - 2018

Dr. rer. nat. (Chemistry, equiv. to Ph.D.)

University of Bonn (Prof Dirk Menche)

2008 - 2014

Diplom (Chemistry)

Humboldt University Berlin

## **Skills**

- · Scientific Thinking
- Education
- Grant Writing
- Analytical Thinking
- Teamwork
- Presentation

#### Languages

German (native)
English (proficiency)
Cantonese (intermediate)
French (elementary)

## **Awards**

RGC Hong Kong Postdoctoral Fellowship 2022/23

University Grants
Committee Hong
Kong

#### Interests

- Hiking
- Photography
- · Web design

#### **Conferences**

### 2018 3rd European Conference on Natural Products Frankfurt (Germany)

Oral presentation: Biomimetic and Total Synthesis of Archazolid F and Novel Structural Analogues.

**2017 RSC 25th International Symposium: Synthesis in Organic Chemistry** Oxford (UK) Poster title: Towards a First Total Synthesis of Archazolid F and Derivatives.

## 2016 Frontiers in Medicinal Chemistry Bonn (Germany)

Poster title: Synthesis of Archazolid F and Other Novel Archazolids: Highly Potent V- ATPase Inhibitors.

## 2015 EFMC-ASMC'15 Rehovot (Israel)

Oral presentation: Synthesis of Archazolid F and Other Novel Archazolids: Highly Potent V-ATPase Inhibitors.

Hong Kong, July 7, 2024
